

# Template structure

## Template structure

Template is composed of:

- One Epic issue,
- Any issues linked to the Epic (relation "Epic link"),
- Any sub-tasks in the Epic,
- Any sub-tasks in the issues linked to the Epic.

Example of Epic template looks like on picture below:

**i** To create issues linked to Epic you can use any issues type you have configured in your JIRA instance.

Issues in Epic can be a part of any JIRA projects created in your JIRA instance.

How to create Epic and linked issues you can read on [Atlassian Jira Epics Tutorial](#).

More about sub-tasks you can read here [Atlassian support page](#).
